

Silver Age
SENIOR LIVING ADVISORS

Hourly Consulting Agreement

Silver Age services are billed in two ways. Some clients enlist our help at no direct cost and we are paid a referral fee by senior living providers. Other clients hire us on an hourly basis. Reasons for this arrangement include personal preference, out-of-state research or consulting, research for someone doing advanced planning who is years out from making a move, those seeking a CCRC (Continuing Care Retirement Community), or when a private pay period is estimated to last less than 4 months. We can be hired by the hour to help find a senior living provider accepting Medicaid as long as the Medicaid recipient themselves does not pay our fee, but rather their family member or representative.

For the hourly consulting agreement, a \$300 advanced payment is due upfront. The remaining balance will be invoiced at the time of a move-in or when consulting time is completed. The average consulting time to find an assisted living facility or adult family home is 15-25 hours including documentation and billing time. We will track our hours and detail our completed tasks. We will share our total completed hours with you at the frequency you desire.

I have read and understand the Silver Age hourly consulting agreement.
